BATHROOMS FOR LIFE

LONDON

EDITION 27

BATHROOMS FOR LIFE

LONDON

EASY TO LIVE WITH, EASY TO LOVE...

Like no other room in your home, the bathroom is all about you. A private space where you can be yourself, it's a place to reflect on life and restore or refresh your body and mind, whatever the time of day.

For over 25 years, Saneux have been driven by a desire to create visually stunning yet flawlessly functional bathrooms with wellbeing at their very heart. The kind of spaces people long to linger in; designed with flair, made to last, and finished with meticulous attention to detail, so every visit is an experience.

Welcome to our world.

SUSTAINABILITY

WE CONTINUOUSLY STRIVE TO FIND WAYS
TO HELP MAKE POSITIVE CHANGES TO OUR
ENVIRONMENT.

These changes will be through the manufacturing process of our products, through our packaging, and through our working practices at our offices, distribution centre, and factories.

WRAS approved products are just one of the ways in which we are contributing to looking after our planet. Brassware and flushing systems that have WRAS approval receive certification that they do not use materials that could contaminate water in any way. Almost 75% of our basin mixers, showers and flushing systems have WRAS approval, and by 2030 we aim to get WRAS approval on all of our eligible brassware and flushing system products.

At our distribution centre and factories, we work with waste management companies to recycle materials that can no longer be reused. Any non-recyclable materials that are collected are used to generate power in order to achieve a zero to landfill policy. We are also changing how we package the inside of our products by introducing recyclable fabric wrap to protect them rather than using plastic wrap.

DESIGN

EVERYTHING BEGINS WITH INSPIRED DESIGN AT SANEUX; IT'S THE ONLY WAY THEY KNOW.

That's why every product and accessory we make has been imagined, drawn, and perfected by designers who really understand how shape and form can make a bathroom amazing. Looks alone are never enough though, so they also pay fanatical attention to detail when it comes to creating bathrooms that perform flawlessly, last a lifetime, and are kinder to the planet too.

QUALITY

A BATHROOM SHOULD ENHANCE YOUR LIFE AND DELIVER THAT UNMISTAKABLE SENSE OF CALM AND WELL-BEING.

For that, you need the peace of mind that comes from knowing every element has been made and supplied with quality in mind. From the design, materials and engineering that goes into our products right through to the way we look after you and your project, everything about the way we work sets new standards.

CERAMIC

THE VITREOUS CHINA WE USE IN OUR PRODUCTS IS BETTER KNOWN AS CERAMIC, AND ITS HERITAGE DATES BACK TO ANCIENT EGYPT.

Shiny, impervious and undeniably beautiful, it's a wonderfully durable material that keeps its good looks no matter how hard a life it has, which is why it works so well in hotels and busy buildings, not just private homes.

Things have moved on since the Pharaohs, and our products today are made using state-of-the-art technologies, achieving tolerances so tight that their performance is reliably high and their fit is consistent and seamless.

A PLACE FOR EVERYTHING AND EVERYTHING IN ITS PLACE, THEY SAY. WE COULDN'T AGREE MORE.

At Saneux, they know that neat, seamless and well organised spaces are the key to feeling calm, and nowhere more so than in your bathroom. To make it happen, we use intelligent design and our acute understanding of spacial layouts to create interiors that are safe, functional and a joy to use. Interiors whose ingenious use of storage creates the order and harmony you need for relaxing.

All this practicality never comes at the expense of style. Our talented designers have an instinct for aesthetics and an eye for detail, producing bathroom furniture that looks a million dollars, but without ever costing it.

STORAGE

SPECIFICATION SUPPORT

At Saneux, they have created an experienced team dedicated to our specification partners. When you work with Saneux, they appoint one of our Specification Managers who will work with your Sales Manager and Customer Services teams to assist in all areas of your project.

Saneux incorporate visually stunning affordable designs that are functional and reliable with exceptional service and stock availability.

Our highly committed Specification Team can guide you through from initial proposals to the planning, scheduling and delivery of the project.

During the planning stage, we can provide mood boards or 3D renders to bring your project to life. We will continue to work beside you and your team to create the vision and design within budget. As part of this service, we offer technical and on-site solutions alongside aftersales support.

Whether you are working on starter homes, luxury chic city apartments, or desirable country hideaways, at Saneux, they have the expertise and breadth of product design to create the perfect bathroom for life.

BASINS & FURNITURE

THE FIRST STAGE OF SELECTING A BASIN & FURNITURE UNIT IS FINDING OUT WHAT YOU WILL BE NEEDING TO STORE, NOT JUST CURRENTLY, BUT YOU ALSO NEED TO THINK ABOUT ITS USE IN THE FUTURE. WHETHER IT IS GOING TO BE USED BY ONE PERSON OR FIVE PEOPLE, IT WILL NEED TO CATER TO EVERYONE'S NEEDS.

WALL MOUNTED UNITS

The ultimate space saving option, wall mounted furniture is fixed off the floor and gives bathrooms the illusion of more space. They are often found in contemporary styles and their usability is always the focus when designing new styles. Cleaning is made easier which is perfect for family bathrooms.

FLOOR STANDING UNITS

If extra storage space is what you need, then have a look at our floor standing furniture. These units come with shelving to help you to store more of, and organise, your toiletries, plus they help to hide the pipework, creating a much tidier space.

COUNTERTOP UNITS

For a more contemporary style, units with countertops can offer both form and function. More internal storage space is available as well as countertop space to hold soaps and lotions whilst giving a luxurious look, and they can work on both wall mounted and floor standing units.

ADDITIONAL UNITS

Extra storage space can be found through our tall side units and mirror cabinets. The tall units can store a plethora of items thanks to their height and shelving, whilst the mirror cabinets are perfect for storing toiletries and any items you use regularly. There are also WC units so that if you want a concealed cistern, you can hide it whilst ensuring that the furniture look is consistent.

We have a vast selection of colours and finishes across our furniture collections.

From gloss white to matte black, bold blues to natural wood veneer finishes, there is plenty of choice available to allow you to create your dream bathroom.

SAMPLES SERVICE

To make choosing your perfect furniture colour easier, you can order samples you're most interested in to see how they will work in your bathroom.

Samples are very important when putting together your bathroom design as colours can look brighter or darker in different parts of your bathroom, so we would always recommend ordering samples where possible.

When you receive your samples, display it on the wall where the item with that colour will most likely be fitted onto so that you can get the most accurate idea as to whether the colour will suit that space. You could also try testing the sample in different light temperatures such as cool, natural, and warm lighting to see which hue complements the colour most.

To order samples, contact us:

MONUMENT

FOR FULL TECHNICAL INFORMATION - VISIT OUR WEBSITE

Inspired by the iconic London landmark itself, MONUMENT was designed to bring an element of London's history into the present day. The fluted design on the fronts of the soft closing doors & drawers gives more depth to the unit and perfectly emulates the curves seen on the Monument column. This collection is part of Niche, an exclusive group of ranges that are only available to purchase through selected in-store retailers & showrooms.

MONUMENT

MONUMENT has a 40cm 1 door unit, and a 50cm and 60cm 1 drawer unit, providing plenty of storage space for different sized bathrooms. The range has its historic elements, but the finishes are completely modern with the choice of matte white, matte black, and matte sage.

SOFIA

FOR FULL TECHNICAL INFORMATION - VISIT OUR WEBSITE

SOFIA is the epitome of delicate traditional sanitaryware, however it is crafted to integrate contemporary elements. It features two styles of floor standing units in the 60cm variant and a 40cm floor standing unit, both of which are hand lacquered inside and out, and in a choice of 3 colours with 4 handle designs so that you can create your traditional bathroom with ease. Complete the look with the rimless close coupled WC available.

SOFIA

The 3 stunning finishes in the SOFIA collection are all inspired by traditional themes from decades past. Cotton white is a soft white with very subtle cream undertones, dove grey is a cool toned light grey, and Prussian blue is a bold royal blue.

WCS & CISTERNS

THE CHOICE OF TOILET FOR YOUR BATHROOM DEPENDS NOT ONLY ON THE PRACTICALITY OF IT, BUT ALSO THE STYLE YOU WANT. WHETHER YOU WANT TO SAVE SPACE OR WANT TO OPT FOR SOMETHING A BIT MORE CLASSIC, WE WILL HAVE AN OPTION PERFECT FOR YOUR NEEDS.

CLOSE COUPLED

The most popular choice, close coupled toilets are found in many family bathrooms. These toilets show an exposed cistern installed on the pan. There are lots of designs from contemporary to traditional. Ours sit fully back to the wall to cover pipework which creates a seamless look and is ideal for cleaning.

CLOSE COUPLED OPEN BACK

Just like the standard close coupled toilet, the open back version still has the cistern fitted with the pan, but the pan itself will have a gap at the back to allow access to the pipework. These have a slightly more traditional look, but are still sleek in design.

BACK TO WALL

Back to wall toilets sound similar to the close coupled toilets, but the cistern is concealed in a wall rather than sitting on the back of the pan. This gives the toilet a contemporary style and helps to save space as these pans are often shorter in projection in comparison to close coupled toilets.

WALL MOUNTED

The most modern of them all, a wall mounted or wall hung toilet is a great option for space saving. These toilets are when the pan is floating off the floor which allows you to clean underneath the pan and save on floor space. They are usually best placed in small, cloakroom bathrooms, and they can hold up to 400kg in weight when paired with a framed cistern.

BRASSWARE

WATER SYSTEMS

TO HELP YOU SELECT THE OPTIMUM BRASSWARE FOR YOUR PROJECT, WE HAVE MARKED OUR PRODUCTS WITH THE PRESSURE REQUIREMENT.

THIS IS REPRESENTED AS FOLLOWS:

LP – MINIMUM 0.2 BAR

MP – MINIMUM 0.5 BAR

HP – MINIMUM 1.0 BAR

FIGURE 1

Cold water is stored in a header tank which feeds the hot water tank, and usually the cold water to the bathroom. This means the water is delivered at low pressure and therefore only taps with LP or minimum 0.2 Bar (2 metre Head) can be used. If the header tank is in the loft space and the taps are on the ground floor the pressure may be higher so taps marked MP 0.5 bar (5 metre head) may be able to be used. You will need to check your requirements with your plumber as, if a power shower is required a pump will need to be fitted.

FIGURE 2

The unvented cylinder stores hot water at mains pressure, usually between 2 and 3 bar, allowing hot and cold water to be delivered at the same pressure. This means a power shower can be achieved without the need of a pump. All LP, MP and HP taps and fittings may be used.

FIGURE 3

A combination boiler heats water on demand, and although it is fed by mains pressure this is regulated to the speed which the boiler can heat the water.

All LP and MP taps and fittings may be used.

FIGURE 4

A pump assisted system will deliver water at high pressure and depending on the specifications of the pump fitted LP, MP and HP taps and fittings may be used.

*These are given as a guide only. To ensure optimum compatibility please refer to a qualified plumber and full product specifications.

MIRRORS & CABINETS

MIRRORS AND MIRROR CABINETS ARE A GREAT ADDITION TO A BATHROOM; THEY OFTEN BRING THE ROOM TOGETHER. THEY CAN CATER TO DIFFERENT NEEDS WHETHER IT BE TO LIGHT UP YOUR BATHROOM OR TO PROVIDE MORE STORAGE IN A CLUTTERED SPACE.

MIRRORS

Electric and non-electric mirrors add many benefits to a bathroom. They help to create the illusion of a bigger space, reflect more light to brighten up the room, and be the focal point of the bathroom. Electric mirrors have features like adjustable lighting, demister pads, and shaver sockets, thus providing both form and function.

MIRROR CABINETS

If you need extra space to store your toiletries, mirror cabinets provide the practicality of storage whilst offering a visually pleasing aesthetic. We have mirror cabinets to suit a particular range, and mirror cabinets that can work with all our furniture collections. The choice is endless.

We are sure you know how important lighting is in your everyday life, but what you may not realise is how important it is to get the right lighting for your bathroom as it can affect your well-being and health.

Whether it's a bright light needed for getting ready in the morning, or a warm glow of an evening to create a relaxing experience, lighting plays a key part in creating the right ambience within a bathroom.

We have a vast selection of mirrors that incorporate various styles of lighting, all of which we will explain in more detail.

LED 6500K
COMMONLY USED IN THE MORNINGS

A mirror with a cooler light will wake you up in the morning when you're getting ready for the day ahead. In fact, it's scientifically proven that cool lighting improves your alertness and reduces tiredness, ultimately making you more productive and boosting your mood.

If you're looking for a mirror that features bright cool lighting then you'll find exactly that with our Oska, Matteo and Frontier mirrors.

NATURAL LIGHTING

LED 4000K
COMMONLY USED DURING THE DAY

You can't go wrong with natural lighting in a bathroom as it complements all interiors. Mainly used in the mornings and during the day, it is a popular style of lighting to create a bright and airy bathroom, and it is the perfect hue for applying makeup as it helps to reproduce your skin tones as accurately as possible.

If you're looking for a mirror that features natural lighting then browse through our Oska, Air, and Frontier mirrors, and our Glacier+, Olympus and Austen mirror cabinets.

WARM LIGHTING

LED 2500K
COMMONLY USED IN THE EVENINGS

When you're winding down for the day, having a warmer light emitted from your mirror is perfect as it creates a relaxing ambience for not only your bathroom but your mind too. Soft, dim lighting encourages your mind and body to know that it is time to relax, so opt for this when you're preparing to go to sleep.

If you're looking for a mirror that features warm lighting then have a look at our Oska, Frontier, and Regency mirrors.
